The ancient 16th-century ruins of Uppsala Castle have been witness to some dramatic events, and, of course, have their very own castle ghost...

The oldest part of Uppsala castle, known as Vasaborgen, was built in 1549 by King Gustav Vasa. At the time it was northern Europe’s most modern defence fortress. Over the years, Vasaborgen has been rebuilt on several occasions. By the time of the Great Fire in 1702, Vasaborgen was a beautifully-decorated white Renaissance castle.

**Murders and ghosts**
The shocking Sture murders were committed here in 1567, and prisoners were locked away for life in the Bayliff Dungeon. The daughter of Gustav Vasa, Cecilia, still wanders the ruins, causing disturbance.

**Enjoy a guided tour**
Today, Vasaborgen is a ruin covering 7,000 square feet and three floors where you can enjoy historical guided tours and ghost walks. Your guide will regale you with exciting tales of power and murder and myths from ancient Uppsala and Swedish history. Vasaborgen’s mission is to make history exciting. We believe that pride in your origins and history awakens curiosity about other cultures. We also believe that knowledge of history helps us avoid repeating mistakes from the past.

Meet Ulf the Viking!

Meet Ulf the Viking among the ship burials of Valsgärde, in the shadows of the royal mounds of Gamla Uppsala (Old Uppsala) or among the runestones of Uppsala! He might even make a visit to your conference! Go rowing with him along the river Fyris – feel the smells, listen to the sounds of nature and the old Viking tales. His satchel contains souvenirs from places he has visited and countries he longs to go back to, and he gladly shares tales from his adventures.

Wounds from innumerable battles now stop him from going on further raids, so he will not only tell you about journeys and fights, but also about the women, the children and the everyday life he is now living. And, of course, about the fabulous buildings he has seen being built in what we today call Old Uppsala!

The Complete Viking Experience

You might meet Ulf the Viking in a place of your choice as a cicerone in the Viking world or ask him to arrange a complete experience of the Vikings and their ancestors in Valsgärde and Old Uppsala! Ulf might take you rowing in a Viking boat, show you boat graves, burial mounds and sacrificial groves and tell you about archeological excavations. He might offer you mead from his horn and round it all off with a proper Viking feast!

Linnaeus 18th-century evening

You enter Linnaeus’ Botanical Garden. A garden filled with species collected by Linnaeus and his apprentices during their extensive travels. You will be handed a drink and gather around the lake pond with its water lilies for a tranquil informal reception.

Carl Linnaeus wanders in, past flowerbeds filled with medicinal plants and curiosities. He talks about himself and his research. Shows off interesting plants and describes how parrots, peacocks and monkeys once filled the garden with life and activity. “God created - Linnaeus organised!” is his unashamed claim! Praised by Rousseau and Voltaire, he has no reason to be modest. Linnaeus asks where the visitors come from, linking this to tales of his apprentices’ fantastic expeditions to all corners of the world.

Then everyone is invited into what was once Linnaeus’ orangery. A place that has seen bananas flourishing and the birth of the modern Celsius thermometer! An exclusive 18th-century-inspired three-course dinner is served here amidst the sparkle of crystal. The food is prepared by Hambergs Fisk, recipient of accolades including Pour le Mérite Gastronomique and Wine Restaurant of the Year 2018!

The evening will feature 18th-century dances by dance group Branicula to music performed by the group Dancing Masters. Their repertoire includes French minuets, Swedish longways and English country dances, and dances described by Linnaeus himself.

Welcome to an unforgettable evening!

Botanist Carl Linnaeus is one of Sweden’s most famous scientists. He and his family had their private, rural retreat at Hammarby outside Uppsala. It is now a popular destination for visitors in summer, with its recreated 18th century agricultural landscape, including a forest, fields, pastures, a kailyard and a hopyard.

The “Walks and Talks...” activity is the perfect way to get to know Linnaeus! We start with a walk through the pastures and forest, following one of the excursion routes used by Linnaeus and his disciples. Mr. Flower Power himself or one of his students will be your guide.

During our walk we will stop at spots where Linnaeus used to lecture, find plants seen by his students and document our findings. We will also talk about the unique Swedish Right of Public Access, which allows you to visit almost any place in nature as long as you follow some common sense rules.

After about 45 minutes, you will have a Swedish fika at the manor before the guide shows you Linnaeus’ uniquely decorated study and bedroom with hundreds of beautiful flower prints which Linnaeus pasted onto the walls instead of wallpaper.

Enjoy a coffee break (fika) while watching the world go by. Have an interesting discussion with a “local”. Browse among the books in the bookshop. Take time for quiet reflections in a museum. Savour the small details in the unusual.

We now offer the best of a guided tour, with the feeling of travelling independently.

Morning coffee break in the Linnaeus Garden. Stroll through a world of botany. Undisturbed. Outside this secluded garden Uppsala begins to awaken, but the birds take no notice. The bumble bees seek out nectar among the beauteous array of historical blooms. Just as they have done every summer since 1655!

The gardener shares his knowledge. Linnaeus steps in and talks about himself and his scientific studies. Shows off his favourite blooms and opens up his home!

Then we wander beside the beautiful river, past the Vikings’ stones and through historic vaults. Reflecting on the magnificence of the cathedral. The stones whisper to us. Possibly accompanied by the organist. Once the impressions have crystallised, the guide brings to life the dead and explains the paintings.

Now it’s time to discover Uppsala for yourself! Find that special souvenir that no one else has seen. Maybe eat in the old student jail!

Nortuna is situated in the very heart of Uppsala county, along the banks of the Vendel stream, 15 kilometres north of Uppsala. The place itself harbours a history going back to 1278, and the surrounding landscape is full of remains from the Viking era, medieval churches and the period when Sweden was a great power. Nortuna was once in the possession of the family of Saint Birgitta, but also of a parson with the duty to find witches, and was the homestead of Anders Sparrman, the most travelled disciple of Linnaeus, the king of botany. Sparrman went on several tours worldwide with the Swedish East India company, and travelled to China, South Africa, Senegal, and indeed all around the world with the English sea captain James Cook during 1772-75 on board HMS Resolution.

Follow history with your guide, the owner of Nortuna, and in the Nortuna East India museum and around the world with Sparrman and Cook. Enjoy a lunch or a typically Swedish homemade “fika” (coffe or tea with a sweet bun, any time of day!). Into antiques? Add a guided tour of the private house and let the owner reveal the fashion in interiors from all periods. Or take in the atmosphere of the medieval wine cellar.

Take a trip back in time on the "Lennakatten" heritage railroad

The narrow gauge (891 mm) line runs 33km (20 miles) east from the city of Uppsala, using part of an extensive earlier rail-road network railroad. Many of the locomotives and coaches date back to the 19th century, carefully restored to their original state and lovingly maintained. The train passes many historical sites, churches from medieval times and the former Lenna Bruk ironworks.

Several restaurants and coffee shops along the way offer plenty of choice for refreshments.

The heritage railway association is based at the end of the line in Faringe, and we can organize visits to the engine shed and workshops, where several engines and coaches are being restored and renovated.
